

THE YOUTH HAVE SPOKEN

ARE YOU LISTENING?

We are a group of ordinary citizens who are passionate about the survival of this planet & making sure future generations inherit an inhabitable earth. We are inspired by all the successful non-violent direct action and civil disobedience movements of the past that have been a driving force for change. We believe we can make a difference too. We believe we can turn things around. We believe in the right to a healthy peaceful existence. We believe we have the right to fight for this way of life. We are not giving up.
